

CONTENTS

15 YEARS TO OUR JOURNAL

No. 1. New Concepts in Science

E.Levich

Theory of Order in Cosmos

V.Etkin

Verifiable Forecasts of Energodynamics

L. A. Gribov , Y. B. Magarshak

To the Problem of Formulation of Basic Principles in the Theory of the Molecular Structure and Dynamics

No.2. Materials Engineering

P. Kudryavtsev

Alkoxides of Chemical Elements - Promising Class of Chemical Compounds which are Raw Materials for Hi-Tech Industries

G.Khodakov

Peculiarities of the Rheology of Human Blood – Superfluidity of the Blood

N. Voropaeva, V. Karpachev, V.Varlamov

Influence of Efficient, Multicomponent, Polyfunctional, Physiologically Active (Nano) Chips with Herbicide Activity on Rice Crop Growth, Development, Yield and on Weed Growth Inhibition

V.Muchin, N.Voropaeva, V. Karpachev

Plant Residues of Various Agricultural Crops as Renewable Raw Material for Obtaining Activated Carbon

E.Barsky

Certain Properties of Entropy in Critical Regimes of Two Phase Flows

E.Barsky

Statistical Parameters of Critical Regimes of Two Phase Flows

D. Miloslavsky , H. Gotlib, O. Figovsky, D. Pashin

Obtaining of Cyclocarbonates of Epoxidized Vegetable Oils (Review)

G. Kosnikov, O. Figovsky, A. Eldarkhanov

Liquid Phase Production Technologies of Metal Matrix Composites (Review)

Letters

A. Nuradinov, O. Figovsky, A.S. Eldarkhanov

Influence of Vibration on Continuously Cast Blooms

Y. Sokolovsky , A. Heifets , A. Sokolovsky

Railway Electrification of Israel with Self-Contained Power Electric Locomotives

S.Zaidman

Solid-State Current Source as an Environment Sensor

Last News and Events

Congratulations on 15 Years to SITA-Journal

New books:

- O.Figovsky, D.Beilin: “Advanced Polymer Concrete and Compounds “
- M.Ioelovich: “Cellulose: Nanostructured Natural Polymer”
